

EL CORTEZ OWNERS ASSOCIATION

CANDIDATE STATEMENTS

LOUIS ADISSI – Dear El Cortez HOA, As a former board member working through some of the toughest times and major changes for the better here at the El Cortez I'd like to again be a part of its continued growth. The El Cortez is important to me not only as a financial investment but because its my home. I owned and rented out unit 409 from 2013-2020 and now live full time in unit 1100. Id like to contribute to the growth and planning that is needed to maintain such a beautiful building for generations to come. As graduate of the US Naval Academy and former Submarine Naval Officer stationed at Point Loma, I have the discipline and skills to work with the board and outside vendors for the good of the El Cortez community. El Cortez is a beautiful building filled with a diverse group of people. It would be my goal to make decisions that only enhance the buildings beauty and bring more enjoyment to its occupants. Thank you, Lou Adissi

MAX SPURLOCK – Fellow ECOA Members, I would like to serve on the Board of Directors because I care for our community and our financial health. I am committed to continuing the many improvements that the recent BODs have accomplished. I get along well with Denielle and look forward to partnering together. I first purchased into the El Cortez in early 2005 and again in 2013. I have served on the Board three previous times. Work Experience I most recently worked at Qualcomm Incorporated as a Senior Director of Strategic Market Analysis and Contract Management within the Technology Licensing division. I have held several jobs in other Fortune 500 companies, such as Oracle and Walmart, and in a small startup. I am an experienced director/manager and have worked in finance/accounting, supply chain management, project management and information technology. Education I have an undergraduate degree in Industrial Engineering from Stanford University and an MBA from The Wharton School, University of Pennsylvania. I also have a professional Certification in Production and Inventory Management (CPIM) from the American Production and Inventory Control Society (APICS).
